

**To survive, crickets need
food, water and to be kept
away from reptiles.
Two out of three ain't bad.**

*Gordon Vadis
Cricketeer*

Hmmm, how to keep crickets alive in a box longer? And then it hit me: WaFoo™! Water and food supplements that greatly extend life, resist mold and lower bacterial buildup—something no other competitor can claim. It's great news for everybody, but especially hungry reptiles. Find out more at ebugco.com or call 1-888-777-2248.
